

Brother MFC (465. USD)

Location **Massachusetts**
<https://www.genclassifieds.com/x-633828-z>

All-in-one color printer/scanner/copier/fax center with wired networking, automatic document feeder, digital camera card reader, and 2" LCD display.

I recently purchased a laserjet printer and no longer use this. It has an auto-document feeder so you can scan a stack of papers w/o feeding one at a time. You can connect it to your router and share the printer/scanner to all your computers. The 2" color LCD display is large and easy to read. I'm including a full set of ink cartridges (all colors) + 3 unopened Black cartridges.

More Details:

- color printing up to 6000 x 1200 dpi (incl. borderless photo printing)
- color scanning up to 600 x 2400 dpi
- color faxing
- built-in ethernet: to share printer over wired/wireless network
- flip-up 2" color LCD display
- auto document feeder: can scan multiple pages at once
- media card slot, USB input: to print photos directly from digital camera or USB flash

Ink Cartridges:

- I've pre-installed 4 brand-new ink cartridges (all colors). I will throw in 3 unopened Black replacement ink cartridges.

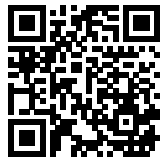

- Replacements avail. on Amazon for \$10 (www.amazon.com/dp/B000P8R8PC)
