Piano Teacher/Tuner offering a beautiful  
KIMBALL Console Piano 42" high

A-1 condition. Just tuned & serviced over last 2 weeks in my home piano workshop.  
Everything works perfectly as it should - all keys, damper, pedals.

I just refinished the lid - rest of cabinet is nice. Dark pine satin finish.  
Soundboard, strings, hammers, damper felts, tuning pins, bridges, all in excellent condition.

Having been manufactured in USA in 1980, this piano will provide another 30+ years of useful life if well cared for. Has the direct-blow action, much better than spinet pianos to work on, and longer strings for superior sound/tone quality.

I can deliver for a very reasonable fee if you wish, with certain conditions - please inquire for details.
