Hey camera lovers! It's time to get paid doing what you love.

Get listed for free on one of the new hottest new photography sites. You determine how much you want to charge per hour*, and you'll get gigs for all kinds of event bookings.

You must have:

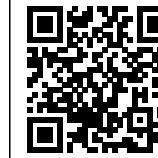

- A DSLR camera
- 15+ examples of your photography work featuring people (photographs posted are real examples of current Kandid.ly photographers' work; your work should be a similar caliber and focus)**
- Friendly people skills
- The ability to reject or accept requests within 24 hours

Hobbyists, amateurs, and semi-pros welcome to apply! Although you *must* have quality portfolio.

Go to this link: <http://kandid.ly/get-listed> and get started today!

**We suggest a range of \$35-\$75 per hour, depending on your experience and portfolio.

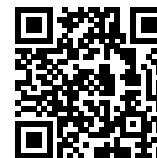

*Weddings are not a focus, so if you have tons of wedding photography, great, but also feature other types of events as well.
