Male dog found Sunday in Westland in the neighborhood behind Aldi.... Would have found owner by now If he had a microchip or a tag on his collar but oh well, nobody thinks to do that till after the fact, Atleast he showed up at the right door ..he's a great dog, listens well, can tell he was trained good... Hopefully he just made an escape and wasn't dumped ... Text or call and leave a voice mail, I work midnights, so I'll get back to you as soon as I can..... I will keep him till the owner is found... If not I'll keep.
