Have to place my Himalayan kitten Poe; my dogs just will not accept him and I am afraid that they will gang up on him and hurt him. He is currently living in my bedroom and does not have access to the whole house, so I feel he would be better off in a safer environment. He likes dogs (gets along with my schnauzer and shih tzu; just the other two dogs I have are the problem) and is very affectionate and playful. I have lost his CFA registration papers (but he had been sold to me as a PET ONLY so papers are essentially useless) so I am not even going to worry about finding them as he can't be registered for breeding. He hasn't been neutered yet; however he has all of his shots UTD for a 3 month old kitten. Sealpoint with beautiful blue eyes, litter trained and likes kids, dogs, and other cats. I am selling him at less than half of what I paid for him. Rehoming fee of \$250 cash only. CAN DELIVER TO THE CINCI.
