Mention this Craigslist ad and as the title says I will take up to 15 percent off any estimate you have. I have over 30 yrs of experience with general servicing and also do custom exhaust work. I do work with exhaust work for up to 3 inches. If you have an estimate or want to inquire about any servicing (and exhaust work) I'm the guy for the job. Prices vary for the extent of the work, but if you have estimates I will obviously beat that price point. You can contact me whenever day or night (text or call).
