## **Interior Design Services (new orleans)**

Location Louisiana https://www.genclassifieds.com/x-634799-z

I am an interior decorator who recently I returned to New Orleans after 12 years in New York and am looking to establish a local portfolio and clientele of my own. (Please note all images are of work I have been directly involved with, but with other firms.) I hold a bachelors of interior design from LSU. Upon graduation I moved to NYC and worked for a handful of well respected design firms. Though I dealt mostly with high-end residential design I have worked on a wide variety of projects, including full building condo developments and retail spaces.

With this experience I gained a wide variety of skills including space planning, interior detailing and millwork, budgeting, material selection, project management, furniture sourcing, lighting design, and real estate staging, amongst others. I am looking for the opportunity to build a local clientele and portfolio by offering my unique skill set at rates that would be mutually beneficial. I am available for a wide variety of projects including consultations on existing interiors, room refreshers, full decorating jobs, and real estate staging. I am also working on e-design packages for complete room designs. These packages would be submitted to the client to be executed by the client, which would be an extremely economic way to do a full interior decor project a tight budget.

If you are interested in learning more about what I can offer your project, please respond to this add with as much detail as possible and I will submit an informal proposal for your review. If the terms are reasonable, we can discus in further detail to firm up an agreement.
