Don't know who to trust?

Don't want to pay a kid to 'learn' on your machine?

Trust me when I say that I have seen the consequences.  
 I am frequently asked to 'fix' the recently 'fixed' machine.

Would you like for someone to just fix your computer?

And do it right for a fair price?

Call me and be pleasantly relieved.

I am user friendly and have 15 years of hands on experience with PC's and networking

- not building gaming computers- TRUE TECH SERVICE.
