Hello,
 I have a Woodmizer Hydraulic bandsaw that I'm looking to put to work. I'm located in Omaha but willing to travel. If travel distance is over 20 miles, I'll need to work in a mileage fee. I can handle logs 36" diameter and approx. 21' long logs with a max straight cut of 28" weight can become an issue though handling of the logs. I'm thinking \$55/hr with a \$120 minimum and \$45 blade fee if I ruin one by running into foreign objects. Let's see what you have! Email is best to contact me, choice two is my cell 402.340.07two2. Thanks for looking. I'm located in Omaha NE. Also have resources to supply lumber of numerous species, just send an inquiry!

Lumber, woodworking, woodworks, woodworkers, wood, walnut, hickory, pine, cedar, ash, oak, hackberry, hard wood, hardwood, timber, tree clearing, mill, saw, chainsaw, timberking, norwood, sawyer, aborist, tree
