Coming several states away to throw a small laid back bachelor party for my buddy. The plan is to have a small group of guys handing out at a house having a few drinks playing cards. We are looking for a few sexy ladies to waitress the party, and play cards with us. We would like the girls to be topless but you can wear anything else you want. We are not looking for dancers just fun girls to enjoy the night with. We are all laid back and easy to get along with. If this sounds like you send me a message. Please include your price, photos and age in the your message. Must be legal
