I offer quality auto repairs that are much more affordable than the dealership. I'm ASE certified with over 18 years experience. I'm factory trained in Subaru, Honda, Nissan, BMW, Mercedes, Volvo, VW, Chevy, Buick, Mitsubishi and many others. I have the diagnostic equipment to troubleshoot today's modern vehicles, and I don't charge anything for diagnostics like other shops. Some of the services I offer are tune ups, fluid flushes, brakes, suspension, engine repair, sensor replacement and many others. I also do performance packages and upgrades. I also offer a great warranty with all my services, meaning if the part I replace has a lifetime warranty then you also get a lifetime labor warranty. I also perform pre purchase vehicle inspections for a lower cost than other shops, I will check the vehicle from bumper to bumper before you buy the vehicle and give you a full detailed list of problems so you know if the vehicle has any issues before you buy. Feel free to give me a call or a text anytime at 965-5150 if I don't answer please leave a message and I will get back to you.
