Young female large breed brindle and white dog. I need a rescue or the owner to get her today. I have her crated on my front porch because she got one of my silkie roosters. My other option is the animal shelter, which i dont want to do. But she is causing chaos around here. With my inside dog and my outside dog. My husband has been very sick under the care of an infectious disease dr for infection that spread to his bone so her coming in the house is not an option. Photo
