

# Collect Food Label Data at National Trade Show (Baltimore Convention Center)

Location **Maryland**  
<https://www.genclassifieds.com/x-635273-z>

Label Insight is assisting with an exciting project at the Natural Products Expo East Trade Show in Baltimore, MD to collect photographs of food label data using a custom mobile phone application. These photographs are then used to enter all product information into a food label database that offers complete product data solutions and analysis.

As a data collector, you will use provided iPhones to scan and photograph food products from the trade show booths using the FoodEssentials custom iPhone application. Candidates must take clear and accurate photos of all data and text on assigned food products and must collect at an established average rate per hour.

This is a short-term, contract position, September 17-19, 2015. Applicants must commit to work a minimum of 20 hours during show hours, Thursday through Saturday, as well as attend a mandatory training session on Wednesday evening, September 16th (you will be compensated for attending training).

Qualifications:  
You must be 18 or older to apply (independent Contractors must be over 18 years old).

Responsibilities:  
Candidates must take clear, accurate photos of all data and text on food items to ensure quality.  
Candidates must collect products at our average rate per hour.  
Candidates must be able to follow direction and effectively work on their own.

Compensation: (\$12.00/hr)
