I bought this used when furnishing my guest room but it only got used once and now I need to downsize. The bed is in solid condition and supported an almost \$300 pound guy for a week (comfortably) when he was here. The paint is chipping a bit on the frame but can either be repainted or stripped to bring the lovely gold color back. Both the trundle and the daybed have mattresses included. One is in really nice shape, the other is acceptable.

Rumor has it you can pull the trundle next to the daybed to make a queen-sized bed for company, but I never did this so I cannot personally attest to this. Still, great way to make things more comfy for company!

Other items for sale: A wooden retro-style desk, large filing cabinet and more to come. Please check out my other ads. I am located near Union, Rockland, Rockport, Thomston and.
