The REVIVE study is for women who suffer recurring vaginal yeast infections. The purpose of the study is to evaluate the safety and effectiveness of an investigational study medication for treating and preventing recurring yeast infections.

In order to participate in this study volunteers must meet the following criteria.

- * You must be between the ages of 18-64
- * You must be experiencing symptoms of a vaginal yeast infection, which include:
 - * Itching
 - * Burning
 - * Irritation
 - * Vaginal Discharge
- * You must have experienced at least 3 yeast infections in the past 12 months (including the current infection)
- * You must not be currently using over-the-counter or prescribed medication for your infection

If you qualify and agree to participate, all study-related care including doctor visits and study medication will be provided.
