Hello,

I have to get rid my two turtles, diamondback terrapins and tank. all must go together. I am moving and there will not be any space for them =[

I have had them for almost 6 years now.

They've been together for all 6 years and I don't want them separated.

I have had them since they were the size of a quarter.

Rehoming with adoption fee of \$150 or best offer.

Must pick up with cash.

Please note, I will ask you some questions regarding your knowledge on turtles.

I don't want to give up these turtles to just anyone.
