

# VBA tutor wanted (Portsmouth)

Location **New Hampshire**  
<https://www.genclassifieds.com/x-635667-z>

I'm looking to hire a VBA tutor that can meet at least once a week for an hour or so over the next couple of weeks/months.

Please have experience in the full host of MOS products as I will need code to run smoothly between sharepoint, excel, powerpoint, word, and Outlook.

Preferably, I'd like someone with a lot of business experience or is at least very math oriented.

Please email with a resume, your experience, or examples of your work.
