I'm looking for a female model to do an outdoor nude art photoshoot, experience in modeling would help but are not required. If you are interested please send me an email with your name, experience in modeling with measurements and a few recent photos of yourself.

I have been a professional photographer for more than 5 years but only attempt this genre of photography for a little bit over half a year. My goal is to show off the human body with art not to do a cheap porn shoot. Even if you have no experience in modeling, I'm willing to give it a try and you can use the photos in your portfolio.

Also, let me know what your rates are. You will only have to sign the release forms after the shoot if I decide to use any of the photos in my portfolio. Thanks, I hope to hear from you soon.
