Great phone. With average wear and tear. Both cameras work great. Screen works perfectly. The phone is for at&t and it is white with a red border. If I do say so myself, this is an awesome phone, I love it and it sucks I have to get rid of it because I am switching to Sprint. It has the smallest hairline fracture at bottom right corner of screen that's barely noticeable. Selling for \$200 obo. Or will trade for Sprint phone. Text me if interested
