Hello Independent Music Artists!

I'm Josh. I have 10+ years experience songwriting, recording, mixing and mastering for my own music and the music of others professionally. I am currently seeking artists to produce, record, mix and master demos for-preferably singer-songwriters who are just starting out and need a boost.

I understand how important it is to have a high quality demo for your music and how hard that is to come by sometimes.

You might not have a full band yet, you might not think you have the money to record and you might just not know where to start.

Shoot me an e-mail, I'd love to help! I offer a travelling compact studio set up so I can come to you. I play guitar, bass, piano and drums, can provide songwriting help, background vocals and can program any other instrument or effect you'd like in your song with the help of midi and instrument simulation software.

There's nothing I love more than taking your "one acoustic guitar, one vocal" song and turning it into a full blown, professional sounding recording, at prices no one can match.

Check out the new way to get started in Philly! Send me an e-mail with your contact information and I will contact you to go over more details on how my process works and answer any questions you might have!
