That one bedroom apartment recently exposed. It's an end unit which means you get that extra little bit of privacy that everyone deserves. It's located on the top floor as well. The kitchen comes equipped with brand new appliances. These are fully energy efficient and new. The kitchen also offers granite counter tops and a full breakfast bar. After that it reveals to the living area for a completely inclusive experience that truly welcomes anyone into the apartment. The bathroom and bedroom are also pretty spectacular. Please send us an email now if you're interested in obtaining a tour of the place, thanks!
