

# Aosom Elite Jr Dog Stroller amp Bicycle Trailer

Location **Texas**  
<https://www.genclassifieds.com/x-636294-z>

This is an Aosom Elite Jr. combination dog stroller and bicycle trailer. It's ideal for someone who owns a dog (or cat, or other similar pet) up to 44 pounds in weight. With this stroller/trailer, not only can you go for extended walks with your pet (simply stroll them along if/when they get tired of walking), but you can cycle with them in tow, too.

Don't let hot or icy/snowy weather stop you from walking with your furry friend(s)--stroll them along in the Elite Jr. without worrying about burnt/frozen paws!

The Elite Jr. is red and black in color. Sturdy and built to last, it features a roomy interior with sturdy floor for your pet(s), with lots of space for a cushion, blanket, cooling pad (for those hot days!), and other strolling/riding essentials.

It has a removable handle, for strolling and support, and even a secondary interior top bar attachment for extra support. On the front is a slot for either the front swivel wheel (for strolling) or the tow bar (for cycling). The tow bar attaches to a hitch that safely and securely attaches to almost any bicycle. There are front and rear zip-up mesh doors for easy entry and exit. These, combined with the mesh 'windows' on the sides, provide excellent ventilation and air-flow. A water-proof soft plastic cover can Velcro to the front to cover the front entry point, protecting the interior from dust and precipitation. The sturdy front swivel-wheel and the two pneumatic, 12-inch bicycle-style wheels on the sides provide a smooth ride.

I am including two safety flags--one red, one orange--for better visibility, especially for cycling.

The Elite Jr. disassembles and folds quickly and easily, and the two pools remain in storage. It has a large, and sturdy, trunk, and a large transport handle. Disassembly is simple. The support bar wheels (removable) level when down, and the front bar fold in half (down).

This stroller/trailer was purchased brand new, and used for one around-the-block walk with a small dog, before it was stored inside of a residential house bedroom. It is in excellent condition, with signs of the aforementioned light use on the wheels.

\$95. Text or email if interested. Price is flexible within reason only. No calls.
