Good evening. I sadly am moving out of state and I feel that moving my 14 year old cat will traumatize her and it wouldn't be fair to her. I am moving 3.5 hours away and that's too long of a ride for a cat f her age. She is spayed, up to date in all vaccines and is great with kids and cats. I am not sure about dogs. She is super sweet, black and white with a bob tail and doesn't really meow. She is an indoor only. She is very laid back and will come with her litter box, litter, food dish and food. I am asking a small rehoming fee to ensure a forever loving home. I'm going to miss her dearly but this isn't fair to her. Thank
