

Compaq Presario 6310US Desktop (50, USD)

Location **South Carolina**
<https://www.genclassifieds.com/x-636425-z>

the computer works great, i had to swap cases cause the original one had a broken power button. its has a 2.4 GHz pentium 4 processor, 40 gb hard drive, 2 gb of ram, cd burner. its currently running windows 7 home premium with anti virus and malware protection. any questions, just email me. the case does have some scratches. but does not interfere with how the computer performs. just cosmetic. power cord, keyboard and mouse included. PS, this is an older computer 2002.
