As a newly established punk/ska/reggae band from South Jersey/Philly area, we are looking for a bassist that:

- is 21 and up
- loves punk ska and reggae music
- will learn our ORIGINAL songs and give input on new original songs
- has own gear and a little money for splitting weekly cost of rehearsal studio
- is able to dedicate at least 3+ hours of practice time once a week but has room to do twice a week if necessary AND has some way to get to practice
- is willing to play shows as soon as songs are ready
- IS VERY SERIOUS ABOUT PURSUING THIS ENDEAVOR
- has an open mind about politics bc the music is highly charged and political; basically, you don't trust gov't at all and understand them and their corporate/banking masters are capable of anything
- gives a fuck about humanity and our fellow brothers and sisters of this planet
- is more in it for the MESSAGE than any fame or money, which is what true punk is all about anyway

If you can sing, that is a plus too but not a requirement. Both the drummer and singer/guitarist of this band are very talented and dedicated so we expect the same thing from a bassist. We don't party during practice and we get shit done. Your drinking/drug habits, if any, are your business but it's expected you function 100% for the band NO MATTER WHAT!!!

is a punk band at the moment and we are looking for a bassist. We are looking for a 2-3
 of the band. We are looking for a bassist who can play the bass and get a good sound.
 We are looking for a bassist who is serious about the music. But we also want you to have fun. We are looking for a bassist who is giving input to write news ones, but you WILL learn a lot about things you may have never knew existed.
 There is normal and alternative education going into the streets so the message considers all aspects of
 the political landscape. This is not just for punk band from high school anymore; this is growing up, well
 named and educated.

IF YOU MET ALL THE ABOVE CRITERIA, we have some limited material for you to listen to that will
 give you an idea of what we sound like and the direction we are headed BUT DON'T BOTHER ASKING

IF YOU DON'T MEET ABOVE CRITERIA.
