We have a few organically raised bulls to sell to a good home. First one is a Dutch Belted Cross (as shown below) who is now about 2 weeks old (still bottle fed) for \$140. We also have three yearling bulls, two of them are Jersey and one is a Holstein. All have been organically raised. STELLAR looking animals! Only will sell to someone willing to raise them to full maturity (ideally for breeding). We also have one (very gentle) castrated bull who is about 2 years old. He is like a pet and would make a great work animal. Please reply by email or phone.
