Free Cats 1 Female, 1 Male (Everett)

Location **Washington** https://www.genclassifieds.com/x-636708-z

I am posting this for a friend. I know nothing about cats myself, so please contact her with any questions.

Once is a Calico, and one is an American Short hair. The male cat is the white one, and obviously the female is the cat with various colors (Calico?)

The Male cat is about 6 years old, She didn't mention the age of the other. These are both indoor cats, and get along with her other pets. She just has too many for her location. They have a limit on the number of pets you can have, so these two have to go.

Please contact her at

These are FREE, so if you want them, and they like you, they are yours.
