

Wanted info on a JRT I rehomed (Washington)

Location

Washington

<https://www.genclassifieds.com/x-636711-z>

I rehomed my female JRT a few years ago to a couple in Centralia who rehomed her around the Tacoma Seattle area. She is a pure breed spayed female white and tan. Tan on her head and a tan spot on her side. She is 11 years old about 10lbs smooth coat long legs. Her name is Nala. Please contact me with any info on her I need to know she's safe and cared for. Also she is still micro chipped in my name and number. Thank you for any and all.
