

Vocalist wanted by Hard Rock Metal Band

Location **Washington**

We are a fully established band with 2 guitarists, a bassist and drummer. We have a complete set that was written with opportunity for vocals to shine. We are song oriented and although we like flashy complex parts, the most important thing is having a good singer that will sing well written songs with bad ass choruses.

Influences include but are not limited to Avenged Sevenfold, Shinedown, Alter Bridge, Pierce the Veil, and Metallica.

Goals include playing a fuck ton of live shows, recording, getting signed and being able to tour.

Looking someone between the ages of 18-25, Male.

Must have transportation.

Practices take place around Tacoma area
