

# Sperm Donor Wanted

Location

South Carolina

<https://www.genclassifieds.com/x-636786-z>

Hello we are an African American lesbian couple from Columbia, SC. We have been together for 3 years and we have decided we are ready to expand our family. We started a year ago by looking into donor clinics and surrogate mothers, when we came to the decision that those options are overly expensive. Therefore we have turned to social networking hoping to find a private sperm donor who is willing to donate. Our qualifications for a private sperm donor are simple:Â

â€¢ The donor MUST be HIV and STD free. We will want to see the results from a certified doctor's office or a health clinic.Â Â

â€¢ We would like the donor to be taller than 5'9

â€¢ We would like the donor to have some background of his family health history from both sides of his family tree.

We are ONLY looking for a private sperm donor. We ARE NOT looking for a sexual partner. If you are interested in helping us fore fill our dreams of having a family please respond to this ad with a picture of you as a child and an adult. We are open to discuss any questions or concerns that you might have. PLEASE BE RESPECTFUL IF YOU DECIDE TO RESPOND TO THIS.
