This is a used Samsonite Suit bag, it shows some signs of wear including a few tears in the fabric, the worst of which I have pictured pretty clearly. All straps, clips, and bindings are accounted for & despite some of the tearing it still zips up & secures a 1-2 suites + 1-2 pairs of shoes securely.

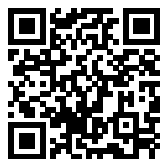

I had basically an identical Samsonite bag (only in much better condition) I sold on CL recently for \$70, so while this one is not in great shape, I believe I have it priced accordingly. Furthermore someone w/the right skill-set in sewing could probably repair it back to pretty good shape w/o too much trouble or need for any extra parts or material as it really only needs some stitching/re-enforcement in two main areas. (thus someone could turn this \$20 bag into one worth \$100+ pretty easily if so inclined)

Local pick up in Capital Hill only, thanks.
