still have 1 beautiful lab mix puppy looking for a home, she is about 8-9 weeks old. I am unsure of the mix as they were dropped off at a friends house very skinny and covered in fleas/ticks since then, she's gained alot of weight (could use some more). She's had first shots, been dewormed several times, and had frontline applied.she is great with small children,other dogs, and cats.she is used to being outside during the day but comes in at night and does very well in the crate.rehoming fee of \$50 to help with expenses and ensure loving.
