

sand, texture, paint ceiling patch (Tempe)

Location **Arizona**
<https://www.genclassifieds.com/x-637149-z>

We had ceiling dry wall repair done. The dry wall and plaster work is done. It needs a few days to dry.

On Saturday the plaster will be dry enough to sand down, texture and paint.

Spot is 2 feed long, 1 foot wide. See photos.

We want somebody to do the finish work on Saturday morning, August 15th: Sand, re-texture, paint the ceiling and clean or do any paint touch-up on the wall next to where the ceiling was repaired. We have texture, paint, brushes, etc. here. Feel free to use your own tools. If there are materials we need that we don't have here, we will buy.
