It is Back to School time. If you or someone you know will be taking calculus, algebra or other advanced math classes, they will need one of these.

The Texas Instruments TI-89 Titanium:

- Graphing calculator handles calculus, algebra, matrices, and statistical functions
- 188 KB RAM and 2.7 MB flash memory for speed; plenty of storage for functions, programs, data
- Large 100 x 160 pixel display for split-screen views
- USB on-the-go technology for file sharing with other calculators and connecting with PCs

New ones start at \$148.48 + shipping and go up from there.

This calculator has some cracks (see photos) but works perfectly fine. It comes with a protective slide cover.

(Batteries not included but I will bring some if you want to test it. LMK.)

Test it before you buy it! You won't get that option on eBay.
