This method is also, great for adding volume, length, thickness, or color to your hair. With the proper care, extensions can last 6+ months depending upon your natural hair growth. I'm also an established hair extensions technician trained, and certified in various methods. This special includes application of extensions, cut and style. *Client provides hair.

I have thirteen years of experience. I'm quick and proficient at my work this is why I'm able to discount this service. I use fusion keratin and the microlink method (strand by strand) You can keep it up to 6+months.

The extensions are attached one by one, adhered with the keratin protein to the hair. The extensions last for about six months. This type of installation doesn't damage your hair. The hair is 100% Remy it can be blow-dried, flat ironed straight and curled to create any look you want yet still behave exactly like your natural looking hair.
