White supremacy is based around the belief that white people are superior to others of different racial backgrounds. Attributes, traits, politically, economically and socially, the idea is that white people have an advantage. I am Producing a documentary that looks at individuals or groups of people that live and celebrate this movement. From an inside perspective, we will hear and learn how they joined this movement, their philosophy and the actions they take to further this idea.

How did they get started? What are their core beliefs? What is their daily life like? What is their future within this movement?

These are just a few of the questions that we will attempt to answer in this documentary. All interview subjects will be kept anonymous through the use of masks, voice changers, body suits, ect. We are looking for the raw, unfiltered voice from within this white power movement. This documentary will not glorify the idea of white supremacy but instead seek to educate the public on their viewpoint and how it came to be. We will treat all interview subjects with dignity and respect while documenting this subject.

To Apply:

1. Your fake name.
2. A brief bio about yourself or the person or group of people you think would be good for this community. Why do they want their voice to be heard? Why should we listen to them? What is their contact info?
