-----

We're a firm that specializes in research for various well known international companies.

Founded in 2005, our goal has always been to help people earn a substantial income by participating in market research.

We offer various paid opportunities for you to earn anywhere from \$16 per hour - \$30 per hour simply for helping us enhance our research.

Many applicants who participate earn quite a bit more than this as well. A number of select studies will actually pay upwards of \$1000.

The way you earn is through participation in a variety of online studies and private panels that we provide you with.

What we do is connect you with the best available paid research assignments to maximize your earnings. We pay you via company check or PayPal. It is completely up to you.
