Hey there, I am currently an Uber driver and I average about \$18-26 per hour. I am also a full time musician and marketing, so Uber works great in conjunction with something else. If you wanted to work full time you could make as much as any other job in that pay scale. I work 10-15 hours per week and it is well worth it and very rewarding. I have also made many good networking connections by talking to the people that ride with me.

Must be 21 or older, Have a newer car, have a good attitude!
