Hello. Thanks for reading this.

I am a pet sitter. A woman asked me to help her let out her dogs because she is half paralyzed and bed ridden. So I am looking for volunteers possibly in her area that want to help. It can be regular 2 times a day or just whatever you can do. Anything helps. They live in the neighborhood of Northern Lights and Boniface.

I believe our pets help us in so many ways. We should be able to keep our pets even when we are unable to get out of bed. For our sake and the pets.

Please call or text me and we can set up a time to meet the dogs and their owner together.

Thank!
