

Pacific Parrotlet (Wasilla)

Location **Alaska**
<https://www.genclassifieds.com/x-637680-z>

I am looking for a new home for a Pacific Parrotlet. Very beautiful American yellow mutation. She is three years old and semi-tame. She was hand raised by me but did not receive enough interaction from her previous owner, the owner recently returned her to me to search for a new home for her. With consistent attention she will improve greatly. :) I am asking \$50 rehoming fee for her including the cage and all accessories, toys, and food. Located in.
