I have an American Pit Bull Terrier whom has called our residence his home since he was 6 weeks old. He was born on 04/05/2014. He is truly a cuddle bug but also extremely protective of his home.

He is extremely active and requires loves long walks, belly rubs and relaxation. He enjoys lounging and watching tv. He is 78 lbs (pure muscle), has been socialized around small dogs as well as children (both small and large). He has an EXCELLENT temperament.

He is aware of basic commands such as sit and stay. He is also crate trained and house broken. He is extremely powerful and participates in weight pulling. He is up to date on all shots and vaccinations. I have all medical documentation given since the age of 8 weeks. He is currently on a high protein -- meat only (grain free diet).

I've attached pictures. Enjoy!!!
