Hey all, I have an awesome futon for sale. It's super comfy and can be set up like a couch, or laid flat for a comfortable bed. It's a Micro suade material and can be easily wiped clean. The color is beige and the leather on the arms is dark brown. The leather has some light cat scratches. I wish I could bring this to my new place but it needs a new home! Come grab it on the second floor in the north end when a time works for both of us preferably after 6pm on weekdays, or a Saturday or Sunday. Let me know if you're interested or have any questions..!
