We have signed up some great musicians for this effort so far but are still short in some of the band positions. We desperately need a few more musicians to add to our roster of talented people who will bring musical JOY to very sick and unhappy elderly people in nursing homes.

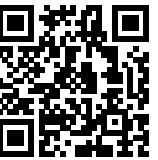

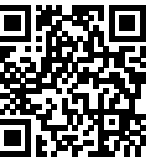

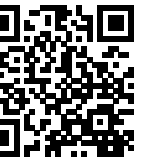

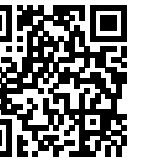

We are trying to create a new standard for entertainment in these places because we believe that people who were entertained by Benny Goodman, Frank Sinatra, Ella Fitzgerald and others DESERVE more than one guy with an acoustic guitar or karaoke machine (which is normal nursing home entertainment) !! We OWE the people of this generation more than being kicked to the curb. Let's show them that people care !!

Get an idea of what we do by watching this video:

It really is an incredible feeling when you see desperately sad people come to life when you play the right music.... . the right music for THEM.

Take a look at these "BEFORE and AFTER" pictures and see how music has the power to transform the lives of unhappy people.

We take calls till midnight every day of the week at (eight eight eight) 7 7 7 - 0 7 6 4. Help us bring something special to these very elderly people who need us so desperately... we are losing more and more of them everyday.
