Help support artists by giving them feedback on their music.

You get paid to write a short review after listening to at least 90 seconds of their song.

You will not get rich and this is not a scam.

The better, more detailed reviews you provide, the more you get paid per review.

It's a great way to earn some extra cash, help support up and coming artists, have your opinion heard, and also listen to some good new music. Link below. Happy listening :)
