Hello everyone

I am a business owner that mainly deals with the sale of electronics, but unfortunately I am not very tech savvy, I do not own an account on eBay nor do I understand it, my sales are decreasing and need to look to the future and start selling to millions of buyers online.

This is where your help is needed, as mentioned I no very little if anything about eBay, so I would require some things from you (I read some eBay seller needed ads on here, and what they require)

Please have 100% feedback or near enough, with a good amount of feedback.

Please have at least \$5000 selling limits, more would be preferred. As you can imagine, a lot of electronics aren't cheap.

Please receive payment instantly once the buyer has paid, I have a lot of stock to sell, so I would need money flowing in immediately, to start selling more stock.

I think that is it for now, if you fit these requirements, let me know so we can talk more.

I will offer anywhere from 10-18% on sales, unless you would want a fixed price?

Can be located anywhere in USA.

Let me know, the sooner the.
