 Fort Lauderdale based software company launuching a VERY COOL, App. in early September. For those who are qualified, we will explain the details of the App during your initial telephone interview.
 We are seeking connected and NOT SHY, "movers and shakers" on college campuses throughout the USA. We will pay you to give away our App. on campus (or anywhere via social media etc.).

 The App has a free version as well as a paid upgrade. You will be paid for every App for which you generate the download. In addition we will pay you an additional commission for each month your referred user remains a paid member. Thus, you can make immediate pay and at the same time, build up a recurring monthly income (example. if you were to generate $50/day in upgrade sales, you would have $250/week or $1,000 in your first month. Next month, assuming those customers remain paying members, you will earn that $1,000 again plus add another $1,000 by repeating the process... each month you can add to your recurring income by helping more customrs upgrade while still being paid a one time commission for every download customer who does not upgrade).

 This is a SIMPLE product to give away... once you hear what this App does, you will realize that it should be a SLAM DUNK to give away 100-200+ / day.

 This is NOT multi level marketing etc. There is no cost for you to be a sales rep. However, we are looking for people who are able to generate 100-200+ downloads a day. We will train you, provide you with scripts and information... in otherwords, we will give you the tools, we just need you to generate the downloads!

 Please reply with a brief email telling us why we should hire you, the number of hours you have available per day and a contact phone number.
