

## Need to rehome my baby girl Molly (Omaha)

Location **Iowa**  
<https://www.genclassifieds.com/x-638023-z>

Two years ago I became sick with 2 autoimmune disorders, and lost my job and now my home. I am moving out of state to move back in with my parents. That's where Molly comes in. The community they live in will not allow dogs over 30 pounds. Molly weighs 50 pounds. I had someone to take her, but they backed out two weeks before we are leaving. Molly is such a sweet girl. She's a 7 year old chow mix. Utd on shots and fully potty trained. She has not been spayed. She gets along with everyone, adults, kids, other dogs and even cats. I will be picky about where she goes, as this is breaking my heart.

Thank you,  
Kim

Edit: For everyone concerned she is NOT free. Rehoming fee will be determined if I feel comfortable with her prospective new family. I love her very much and am wise to the ways CL.
