

# Looking to Convert Cars to Electric (Glenwood)

Location

Iowa

<https://www.genclassifieds.com/x-638078-z>

Trained by the best to convert the manual transmission car of your choice to electric. Whether you have environmental concerns, a desire to reduce your dependence on fossil fuels, elect to reduce your transportation costs, want to reenergize a classic car or just want to own something extra special, set up a meeting with us. You can achieve the equivalent of 100 mpg with very little maintenance. The amount of miles on the current engine doesn't matter. We just require a fully functioning, registered automobile and your expectations to get started. You pick the style, the range and the speed and we'll convert the car for you. You will be able to plug into a standard 110V outlet or the universal J1772 plug. A car built for highway speeds to cover your regular city commute is doable today! Let us know your interest and we can discuss the.
