

Lost German Shepherd

Location **Missouri**
<https://www.genclassifieds.com/x-647992-z>

Daemon is from Kansas City and had been staying with some relatives in Beecher City, Illinois for a couple of weeks when she ran away and never came back. This was in May 2014. There have been a couple of possible sightings in the area, but nothing concrete or confirmed. She's a tan german shepherd mix and weighed about 45 pounds when she disappeared. She has a black snout, a little bit of black on her tail, and a few black spots on her tongue. She was wearing a blue collar with no tags and does not have a microchip.

She is very adventurous and energetic. She has always had a habit of running off, but she's always come back within a day or two. It is possible that she simply got lost and couldn't find her way back. She might have been taken in by a stranger who's been taking care of her. She might also be trying to get back to Kansas City. If you have seen her or have any information that could help, please email, call, or text.
