Do you have a project around the house you have been meaning to get to but just dont have the time or knowledge or man power to finish? But you dont want to pay a over priced contractor to show up with ten guys that sit around all day and accomplish nothing? I am not a contractor, I am your every day handy man with expert experience. My prices tend to be very low considering there is no overhead cost like you would pay with your average contractor! Usually the price per job varies depending on each persons home improvement needs. . Its something my customer and I agree upon so no one feels taken advantage of. I tend to be very quick but not forgetting to pay attention to detail . And I guarantee my work! The largest amount of my business comes from word of mouth from a job well done but it never hurts to have an ad out there. If your interested Contact Me at
